CLOUD VISION TECHNOLOGIES

CLOUD VISION TECHNOLOGIES

Technology Trainings & Development

There is no bigger Revolution in Education than the Implementation of Technology

Trained 500+ students across the globe

We have counselled 650+ Students on Career GuidancE

Cloud Vision Technologies is one of the best Software & Hardware training Institute in Hyderabad providing the career guidance and technology trainings that helps students & working professionals to achieve their career goals. It was established in the year 2018. We are training students across Bangalore, Pune & Chennai and further expanding to US, Singapore & Malaysia.

Hands-On Approach

We utilize a hands-on approach in all of our classes. With limited students in per batch each student has ample opportunity within the class to get one-on-one instruction and review for any topics covered in the course.

We have received an Award of "**TECHNOLOGY EXCELLENCE AWARD FOR THE BEST TECH TRAINING HUB OF THE YEAR of 2023"**at Grand Capthorn (Singapore) with the presence of Mr. Jayesh Ranjan(Principal Secretary- IT Department of Telangana & Mr. Amarnath IT Minister (Andhra Pradesh).

Established in 2018, Cloud Vision Technologies has emerged as a leading technology training hub with a primary objective to assist students and working professionals in achieving their career aspirations through quality technology training. The company offers both online and offline training sessions, with a maximum group size of five individuals to ensure personalized attention and quality education.

Our Highlights

- Technical Seminars
- Only 5 Students in a Batch (Online/Offline)
- Placement Assistance
- Job Guarantee Programs*
